

4th SCAR AAA WORKSHOP

31 July – 4 August, 2017

Tweechol Botanical Garden
Chiangmai, Thailand

The **Astronomy and Astrophysics from Antarctica (AAA)**
Science Research Program
supported by the
Scientific Committee on Antarctic Research (SCAR)

and the
National Astronomical Research Institute of Thailand (NARIT)

invite you to the
4th SCAR AAA Workshop
www.narit.or.th/en/index.php/aaa2017

Abstract deadline: June 15, 2017

Past and present projects have established Antarctica has many advantageous locations for astronomy and astrophysics research. New experiments and site proposals on the plateau and elsewhere offer exciting opportunities. This workshop will cover current and future astronomy and astrophysics research in Antarctica and serve as a forum to discuss the next scientific program proposal for AAA to SCAR. We encourage submissions on ground and airborne-based experiments with topics such as cosmic microwave background radiation, neutrinos, cosmic rays, optical, infrared and other instrumentation regimes.

Funds are available to help offset travel costs. See the workshop [webpage](#) for more details including registration and a schedule.

Scientific Organizing Committee:

Jenni Adams	James Madsen
Michael Ashley	Anna Moore
Elia Battistelli	Naomasa Nakai
Jennifer Cooper	Zhaohui Shang
Nicolas Crouzet	Boonrucksar Soonthornthum
Adriana Gulisano	Charling Tao
	Lifan Wang

Local Organizing Committee:

Saran Poshyachinda, deputy director (chair)
Suparek Aukkaravittayapun, director of research facilitation
Wichan Insiri, director of foreign affairs
Kanlaya Thapiang, head of research support
Thirasak Panyaphirawat, research coordinator
Nirun Hirunsook, research coordinator
Natapit Thongsavai, research coordinator
Nuttapong Anuwong, IT engineer
