JOURNAL OF ASTRONOMICAL HISTORY AND HERITAGE ISSN 1440-2807

EDITOR

Professor Wayne ORCHISTON (Thailand)

ASSOCIATE EDITORS

Professor Richard G. STROM (Netherlands) Professor Joseph S. TENN (USA)

EDITORIAL BOARD

Dr David ANDREWS (England) Dr Alan BATTEN (Canada) Dr Allan CHAPMAN (England) Dr Suzanne DÉBARBAT (France) Dr Wolfgang DICK (Germany) Dr Steven DICK (USA) Professor Bambang HIDAYAT (Indonesia) Professor Rajesh KOCHHAR (India) Professor LIU Ciyuan (China) Professor Tsuko NAKAMURA (Japan) Professor NHA II-Seong (Korea) Professor F. Richard STEPHENSON (England) Professor Brian WARNER (South Africa)

The *Journal of Astronomical History and Heritage (JAHH)* was founded in 1998, and since 2007 has been produced three times yearly, now in March/April, July/August and November/December. It features review papers, research papers, short communications, correspondence, IAU reports and book reviews.

Papers on all aspects of astronomical history are considered, including studies that place the evolution of astronomy in political, economic and cultural contexts. Papers on astronomical heritage may deal with historic telescopes and observatories, conservation projects (including the conversion of historic observatories into museums of astronomy), and historical or industrial archaeological investigations of astronomical sites and buildings. All papers are refereed prior to publication. There are no page charges, and *in lieu* of reprints authors are sent a pdf or Word camera-ready version of their paper so that they can generate their own reprints on demand.

Prospective authors may download the 'Guide for Authors' from <u>http://www.narit.or.th/en/files/GuideforAuthors.pdf</u> or request it from Professor Wayne Orchiston (wayne. orchiston@narit.or.th). Intending contributors should carefully follow these guidelines when preparing manuscripts. Papers and book reviews should be e-mailed to Professor Orchiston, or posted to him at:

National Astronomical Research Institute of Thailand 191 Huay Kaew Road Suthep District Muang Chiang Mai 50200 Thailand

Enquiries concerning review copies of books, advertising space, and back numbers of the *Journal* also should be directed to Professor Orchiston.

The *JAHH* is now an electronic journal. All content back to Vol. 1 may be downloaded free of charge from either the Journal's web site at http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the SAO/NASA Astrophysics Data System site (http://www.narit.or.th/en/index.php/jahh or the sector or version of the journal will continue to be produced three times a year (nominally in March, July and November) and posted on both sites. Those who wish a hard copy may print it out or have it done by their local printers. For this reason a single pdf of each entire issue is available on the site at NARIT.

COVER IMAGE

A sketch by Akira Sato showing the rhombic antenna of the 100–140 MHz dynamic spectrograph (on the tower above and slightly left of the artist's signature) and the 10-m parabolic antenna. In the background, and to the left of the parabolic antenna, is the TAO's distinctive 'Einstein Tower' solar telescope. This image appears in the third article in the series, Highlighting the history of Japanese radio astronomy, by Kenji Akabane, et al., which starts on page 2 of this issue (courtesy: NAOJ Archives)
